**Where**

$$R_{SE} = 1000000 * A / (365 * T * ADT)$$

R<sub>SE</sub> = Observed collision rate; # of acc./mil. vehicle

A = Number of collisions over study period

T = Total number of years over which intersection accidents were collected; June 2010 to December 2011 and January 2013 to June 2013 = 2 years

ADT = Average Daily Intersection Traffic
