

Project Update

Pleasant Hill Road & Olympic Boulevard Roundabout Project & Reliez Station Road Signalization Improvements

Date: 2/3/17

This week, the contractor completed the installation of the final pavement striping for the roundabout, and continued installation of the split-rail wood fences. The contractor also began laying out the stone paving for the truck blisters on the northeast and northwest corners of the intersection. Demolition and conduit installation continued at the intersection of Reliez Station Rd and Olympic Blvd for the traffic signal project.

Next week, weather permitting, the contractor is scheduled to continue placing imported topsoil, begin planting shrubs, and complete installation of the split-rail wood fence at the roundabout. The contractor will also continue demolition work, installation of the electrical conduits, and traffic signal foundations at the intersection of the Olympic Blvd and Reliez Station Rd.

If you have any questions or concerns, I may be reached at (925) 284-1951.
